# Under The Hammer.

What Some Popular Toys & Collectibles Are Selling For.

I remember spending many hours on these cool hand held games. These were the game of my youth. What was once a simple electronic game for adults and kids alike, has now become one of the hottest sought after retro electronic gaming devices of today. These can fetch a great sum on eBay and other online auctions sites. But before we look at the values of some of these devices, lets quickly visit their history. According to a great site called Nintendo Wiki, located at [https://nintendo.fandom.com/wiki/Game\\_%26\\_Watch\\_\(series\)](https://nintendo.fandom.com/wiki/Game_%26_Watch_(series)) , this is the story of Game & Watch.

## What are Game & Watch?

The Game & Watch series are a total of 60 handheld video games that were released between 1980 and 1991. The games were released a year before Donkey Kong, three years before the Famicom, and a whopping nine years before the Game Boy was released. While not Nintendo's initial entry into the video game market, it was one of their most successful products in the early 80s. After Nintendo started to develop popular series such as Donkey Kong, Mario and The Legend of Zelda, they constructed games based on these titles, and even made games that starred popular characters such as Mickey Mouse and Snoopy. The idea of the Game & Watch was conceived by Gunpei Yokoi. A multiple of companies help Nintendo create their Game & Watch

units, including Mego, CGL, Jizl, Futuretronics, Bienegraeber&co, and Videopocoe. While the games themselves were virtually unchanged, the box that the game came in were different as each one was custom made by the respective company.

## Breif History:

The games were created by Nintendo designer Gunpei Yokoi who was hand picked by the Nintendo president after finding unique toys that the man had made before. Gunpei Yokoi would later go on to create the Game Boy, Metroid, Super Mario Land, and the Virtual Boy, among other products. After 58 of the 60 games had been released, Nintendo made a surprising choice to release the Game Boy which featured interchangeable cartridges similar to the NES. Some consider the Game & Watch to be the handheld variant of the Color TV Game series - Which, like the Game & Watch, were units that featured one game and one game only, and would later feature a successor with interchangeable cartridges. After the Game Boy was released, Nintendo quit production of the Game & Watch series about a year later in the 90's. A revival of the games were released in the late 90's under the name of Mini-classics which were rereleases of the classics that were placed in small units that featured a key chain.

## Mystify: Michael Hutchence.

Rated: M

Length: 102 minutes

'MYSTIFY Michael Hutchence' is a powerfully intimate and insightful portrait of the internationally renowned frontman of INXS, Michael Hutchence. Deftly woven from an extraordinary archive of rich imagery, Michael's private home movies and those of his lovers, friends, and family, the film delves beneath the public persona of the charismatic 'Rock God' and transports us through the looking glass to reveal a multifaceted, intensely sensitive and complex man. For an all too brief time, we revel in Michael's Dionysian beauty and sensuality on stage and off. We listen to the range of his extraordinary voice and witness the charmed way he travels through life as he is propelled to world acclaim. But Michael struggled with the idea of success, the creative limits of pop stardom and how to express his integrity; a longing that shaped his life and music and gave birth to a desire to go far beyond the constraints of pop. A violent event strikes Michael and changes his life dramatically, fracturing his sense of self and robbing him of his connection to life. Made vulnerable, he is unable to navigate the complex challenges he faces, and has little defence against the onslaught of the tabloid press that descend on his world. Amidst the darkness, Michael's newborn daughter, Tiger, becomes his one bright light.

Alex's mission is to go back to Londinium through a portal in London's Mithraeum and find out all he can about the blue-eyed girl. There are just three rules: 1. ## URBAN LEGENDS FROM SPACE: THE BIGGEST MYTHS ABOUT SPACE DEMYSTIFIED.

Author: Bob King.

Bloomsbury Publishing.

From chem trails to black holes and supernovas, misinformation about space travels faster than the speed of light. Even the facts we take for granted—like the earth spins once every 24 hours and you can see the Great Wall of China from space—are not as true as one would think. Urban Legends from Space helps you to tell science fiction from science fact.

Whether or not you're into sci-fi or SpaceX, you've probably called a meteor a "falling star" and think astronauts float around in space stations because there's no gravity. Bob King, author of Wonders of the Night Sky and writer for Sky & Telescope magazine, explains the truth behind myths of navigation and landmarks, celestial bodies and government conspiracies. Compasses don't always point north; the sun isn't yellow and Galileo didn't invent the telescope. King explains why some people believed they found Bigfoot on Mars and many other myths—and provides us with concrete evidence to put

those misconceptions to bed. No matter what you think you know, there's something new King can teach you about our universe.

## Pie in the Sky.

Publisher: Walker Books Australia.

By Remy Lai

Illustrated by Remy Lai

El Deafo meets Inside Out and Back Again in this funny, emotional illustrated middle-grade debut about immigrating to Australia, being upstaged by an annoying little brother, baking cakes and overcoming loss.

When Jingwen moves to Australia, he feels like he's landed on Mars. Making friends is impossible, since he doesn't speak English, and he's stuck looking after his little brother Yanghao. But Jingwen knows how to make everything better. If he can just make all of the cakes on the menu of the bakery his father had planned to open—and complete the dream he didn't have time to finish—then everything will be okay. Sure, he'll have to break his mother's most important rule about not using the oven when she's at work, keep his little brother from spilling his secret, and brush up on his baking skills, but some things are worth the risk. In her debut novel, Remy Lai captures with humour and heart, what it means to want desperately to belong and just how powerful one

wish can be.

A funny, sensitive, story about belonging that will captivate even the most reluctant of readers and has the potential to win local and international awards.

Great package: This book will be a chunky, heavily illustrated paperback, with a two colour interior (black and a pantone blue) and a recipe for Rainbow Cakes at the end. In the US, this novel was pre-empted in a six figure (per book), two book deal.

'Child experts will tell you that I'm way too young to carry such a burden of responsibility on my tender shoulders. But really, what do they know?' Who is Bobby Seed?

He's just your average sixteen-year-old – same wants, same fears, same hang-ups. Dull, dull, dull.

But then there's the Bobby Seed who's a world away from average. The Bobby Seed who has to wipe his mum's backside, sponge her clean three times a week, try to soothe her pain. The Bobby Seed whose job it is to provide for his younger brother, Danny, to rub his back when he's stressed and can only groan and rock instead of speak.

That's Bobby Seed. Same, same, same, yet different, different, different.

## Otherworld.

By: Jason Segel, Kirsten Miller

"When I was a teenager, I was one of the lucky few who got to experience a game very much like *Otherworld* before it was shut down. When I heard rumblings it was being reimagined for VR, I knew it was something Kirsten and I had to write about. Part mythic adventure, part sci-fi love story, entirely cautionary tale - we wanted to reach the new generation of potential players before this 'game' becomes a reality." - Jason Segel

There are no screens. There are no controls. You don't just see and hear it-you taste, smell, and touch it too.

In this new reality, there are no laws to break or rules to obey. You can live your best life. Indulge every desire. It's a game so addictive you'll never want it to end. Until you realize that you're the one being played.

## THE PATH TO CHANGE: THOUGHTS ON POLITICS AND SOCIETY

Pope Francis

Pope Francis recounts his early life, including his relationship with his mother and his grandmothers, former girlfriends and childhood sweethearts, as well as the psychoanalysis he underwent aged 42.

Dominique Wolton asks Pope Francis about his decision not to live at the grand Apostolic Palace, about his views on the future of Europe, all within the context of politics, society, and the role of the Church. No subject is taboo, with paedophile priests, divorce, and the role of women in the church all coming into the discussion.

Dominique Wolton, French sociology and politics specialist, reveals the fascinating inner thoughts of His Holiness, including personal truths and stories from his early life never before made public. Recorded over the course of a year, these warm and human encounters freely address the major issues of our time: peace

and war, politics and religion, globalization and cultural diversity, fundamentalism and secularism, Europe and migrants, ecology, inequalities in the world, ecumenism and inter-religious dialogue, the individual, family, time, trust and joy.
